Larkin Printing Co. Sacramento, Cal.

INTRODUCTION

The volume herewith presented constitutes Sacramento Directory for 1928. The publishers have endeavored to produce a volume combining all that is vital in the civic, social and industrial life and activity of Sacramento.

A careful enumeration of the citizens and business interests of the community and a compilation of the result by trained employees assures as correct and reliable a work of its character as is possible to be produced. The publishers have an organization solely devoted to the publication of directories, and their methods and resources are unrivaled. Their imprint on the hundreds of directories published for cities throughout the country attests the quality and reliability of their product. Directories are an essential and indispensable means of reference and an index to what is in a community. They portray it as it actually is and they are the only means whereby its various features can be learned by the general public throughout the country.

The several essential departments of the Directory are set forth in the order following:

THE MISCELLANEOUS DEPARTMENT, pages 13 to 21, include data concerning city and county officials, churches, clubs, associations, schools, societies, parks, public buildings and halls, secret and benevolent societies, etc.

THE BUYERS' GUIDE, pages 29 to 88, contains the advertisements of the leading and progressive business men and concerns alphabetically arranged under headings adapted to the class of business conducted. This feature is printed on tinted paper.

THE ALPHABETICAL LIST OF NAMES OF CITIZENS, business firms and corporations is embraced in pages 89 to 643.

THE STREET AND AVENUE GUIDE AND DIRECTORY OF HOUSEHOLDERS extends from pages 645 to 833.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 853 to 938 and shows the various manufacturing, mercantile and professional occupations, compiled under headings appropriate to the class of business pursued. This department will be appreciated as a special trade directory. The directory is the common intermediary between buyer and seller.

PUBLISHERS' NOTE

The information in this book is gathered as far as possible by actual canvass, and is compiled in a way to ensure maximum accuracy. While the Publishers will in no way be held responsible for any errors that may occur, they will be glad to have any inaccuracy brought to their attention, so that they may be corrected in succeeding editions.

SACRAMENTO DIRECTORY CO., Publishers.

UNITED STATES COPYRIGHT LAW

In Force July 1, 1909

Section 28.—That any person who wilfully or for profit shall infringe any copyright secured by this Act, or who shall knowingly and wilfully aid or abet such infringement, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by imprisonment for not exceeding one year, or by a fine of not less than one hundred dollars nor more than one thousand dollars, or both in the discretion of the court.

Sacramento Facts and History

AGRICULTURAL

Sacramento Region produces 38% of the total value of agricultural products in the State of California.

INDUSTRIAL

Number of Manufacturing Plants:
1919.....284
1927.....425
Annual value Manufactured Products: $65,000,000.

LOCATION

Geographic and economic distribution center of the Sacramento Region, composed of twenty-one counties possessing over fifty per cent of the water resources of the State of California, rich agricultural lands and diversified industrial resources including lumber and industrial mineral deposits.

RAW MATERIALS

Center of great producing area including the widest diversification of resources in the State.

TRANSPORTATION

Three transcontinental railroads. Three interurban electric lines. Three Sacramento River steamer lines, 268 vessels. Nine motor stage lines. Nine motor truck lines.

POWER

Abundance of electric power at low rates.

WATER

Excellent municipal water supply in abundance at lowest rates in United States.

AVAILABLE SITES

Excellent locations on rail and water or both, available at reasonable cost.

MUNICIPAL CONDITIONS

Conservative tax rates, excellent housing conditions, progressive city government providing ample facilities for industrial expansion.

LABOR

Largest labor market west of Chicago with excellent relations prevailing.

OPPORTUNITY

A sound, prosperous, expanding section of California with increasing markets.

The Sacramento Chamber of Commerce

Is at your service for further information

SACRAMENTO, the "Heart of California" and capital city of the state, is located at the confluence of the Sacramento and American rivers, in the center of the great agricultural, mineral and timber producing area of California. With a background of history closely entwined with some of the great epochal events in the civilization and development of the Pacific Coast, Sacramento, through her years of civic and commercial progress, has maintained leadership among the cities of the West. It is now fifth largest of California's cities, and the largest interior city on the Pacific Coast.

The close of the year 1927 marked a six-year period of development not matched by any previous twenty-year period in the history of the city. This was due to the splendid progress of the Sacramento Valley and mountain counties, to the development of Sacramento as a commercial and manufacturing center, and to the program of municipal improvements undertaken by the citizens themselves through the municipal government. Under the business-like regime of the City Manager-Council form of government, which has been in force since June 30, 1921, more than $70,000,000 was expended in building permits, bond funds, municipal budgets and allied activities. Building permits have averaged in excess of $9,000,000 per year for six years.

Sacramento has graduated from the class of the ordinary capital city to a thrifty metropolis of approximately 110,000.

The westward movement of population has found Sacramento one of the beautiful cities of the Golden State, a comfortable and prosperous community in which to live.

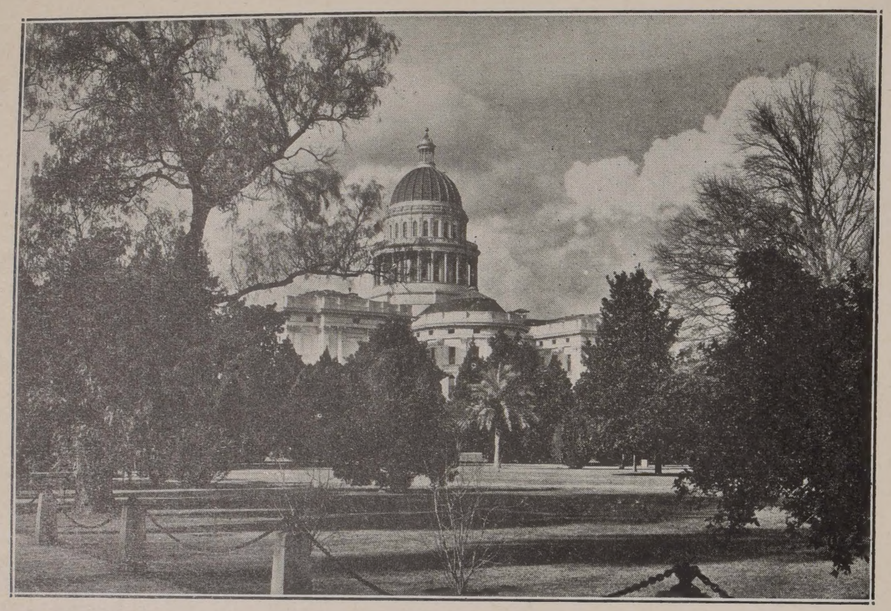
The city is built on a level plain with an incorporated area of fourteen square

miles. The climate is semi-tropical, with an average mean annual temperature of sixty degrees, and an annual average rainfall of 19.34 inches.

Sacramento's most notable beauty is in its wide tree-lined streets and its 1219 acres of municipal parks. No city in the West equals this city in number of street trees, cared for and protected by the city government.

Sacramento is the home of the annual California State Fair, the largest and most successful exposition of its kind in the United States.

Notable among the historic points of interest are Sutter's Fort, now entirely rebuilt, and maintained as a state museum, housing a priceless exhibit of relics of pioneer days; Crocker Art Gallery, one of the largest and most valuable art collections in the West; and the $8,000,000 group of Capitol buildings, surrounded by a 38-acre



STATE CAPITOL BUILDING

state park world-famed for its beauty and the variety of trees, shrubs and flowers gathered from every country on the globe.

Sacramento's school system is recognized as one of the best in a state noted for its educational progress, with a $1,500,000 high school and a $600,000 Junior College typical of its outstanding excellence.

The beauty of its residential sections, modern public and business buildings, beautiful churches and splendid hospitals add to its attractiveness as a home city.

Sacramento's recently completed million dollar memorial auditorium, splendid hotel and restaurant accommodations and its metropolitan theatres have made it an outstanding convention center, exceeded in numbers of state and national convention gatherings only by Los Angeles and San Francisco.

Most remarkable of any feature of its development has been Sacramento's industrial growth. More than four hundred industrial plants furnish employment for approximately one-fifth of the city's population.

The Southern Pacific Shops in Sacramento are second largest in the world. The company has a total of 5,534 employees in Sacramento, with an annual payroll of $7,292,503. The Western Pacific, with its main shops here, employs more than 600 mechanics, with an annual payroll of nearly $1,000,000.

The principal industry is that of canning fresh fruits and vegetables, two of the city's four canneries being the largest institutions of their kind in the world. Nearly 14 per cent of the entire annual output of California's 84 canneries is produced in Sacramento. The recently completed plant of the American Can Company is the largest and most modern of the can factories operated by that national concern, emphasizing Sacramento's position as the canning center of the state.

Sacramento has the only almond shelling plant in the world, and more than fifty per cent of the state's total almond output is handled here.

Flour and feed mills, slaughtering and meat packing houses, rice and bean cleaners, clay, pipe and pottery works, lumber and box factories and similar institutions convert into manufactured products other raw material provided by the vast agricultural, timber and mineral wealth of the region.

Sacramento is the banking center of interior California, served by nine strong banking institutions whose combined clearings in 1926 totalled $442,501,125.

HISTORY

Historically, Sacramento is associated with three great epochal events in California's development.

The settlement established August 12, 1839, by Capt. John A. Sutter at Sutter's Fort, now Sacramento, was the first settlement of white men in interior California, and marked the beginning of agricultural development that has made California third among the states of the Union in total value of its agricultural products, and seventh in population.

The discovery of gold January 24, 1848, by James W. Marshall, one of Sutter's men, at Coloma, sixty miles east of the city, brought about the great gold rush of '49 and '50, which so quickly populated the state that it was admitted to full-fledged statehood September 9, 1850.

The transcontinental railroad started from Sacramento in 1863 and completed in 1869, (the old Central Pacific, now Southern Pacific) was the first to link the West to the East with bands of steel, and from the viewpoint of lasting benefits, overshadows even Marshall's discovery.

Sacramento was incorporated in 1849 and chosen as Capital of California in 1854.

THE SACRAMENTO CHAMBER OF COMMERCE

This organization is the active representative of the commercial, industrial, financial and civic interests of Sacramento in promoting its welfare and prosperity. The Chamber is completely departmentalized, with Industrial, Agricultural, Mining, Highway, Traffic, Convention, Tourist and Resort, Exhibit and Publicity departments, under experienced managers, set up for the purpose of supplying complete and authentic information on matters relating to Sacramento and Northern California. Arthur S. Dudley is Secretary-Manager. The Chamber occupies its own building at 917 Seventh Street.

Directory and Reference Media

THE reference medium or directory, whether it is a city directory, state gazetteer or a business directory, ties up closely with other forms of advertising. It is distinguished from the creative style of advertising in that it is **passive** while the buyer is **active.** On the other hand, the creative advertising in newspapers, magazines, trade papers, etc., is active while the buyer is passive.

Both are necessary in a well-rounded campaign. The function of creative advertising is to make people want what they did not want before, and to educate them to the point where they are conscious of that want. Reference advertising is an aid at the critical time when the initiative has passed from the seller to the buyer; when the desire to buy is strong, and the question is whether the prospect will buy the advertised article, another brand, or cool off altogether while waiting for the "catalog and name of nearest dealer." If the advertisement which suggested the want can be supplemented by another directing the prospect to the place where he can see the goods, the efficiency of the entire advertising expenditure will be greatly increased.

The directory has a 100 per cent prospect circulation inasmuch as its very nature makes it sell only where it will be used. Its circulation is not so much gauged by the number of copies sold as by the number of people who consult it. There are directory libraries maintained throughout the country for reference purposes, and in them may be found all the most important directories published. Surprise is often expressed by librarians at the number of people who are constantly consulting these sources of information.

There are many kinds of directories and "catalogs," each covering some trade, or locality, or group interest, in which organized information may be found that is useful to the buyer. In every buying center the local directory presents a medium of universal accessibility. For over a hundred years people have been accustomed to refer to it as a logical place to find certain kinds of information. A system of exchange enables each publisher to offer free access to a file of the latest issues of directories from all over the country. This gives every local advertisement a nation-wide accessibility.

The long life of a directory advertisement is a strong point in its favor. It has an existence of 365 days and sometimes twice that, depending on the frequency of issue. It is always kept where it can be found by the buyer when he wants it.

It has a strong appeal for institutional advertising, as reputable publications give prestige to the advertisers who patronize them. It is a significant fact that from 80 to 90 per cent of the advertising in these publications is renewed year after year.

Directory and Reference Media

THE reference medium or directory, whether it is a city directory, state gazetteer or a business directory, ties up closely with other forms of advertising. It is distinguished from the creative style of advertising in that it is **passive** while the buyer is **active.** On the other hand, the creative advertising in newspapers, magazines, trade papers, etc., is active while the buyer is passive.

Both are necessary in a well-rounded campaign. The function of creative advertising is to make people want what they did not want before, and to educate them to the point where they are conscious of that want. Reference advertising is an aid at the critical time when the initiative has passed from the seller to the buyer; when the desire to buy is strong, and the question is whether the prospect will buy the advertised article, another brand, or cool off altogether while waiting for the "catalog and name of nearest dealer." If the advertisement which suggested the want can be supplemented by another directing the prospect to the place where he can see the goods, the efficiency of the entire advertising expenditure will be greatly increased.

The directory has a 100 per cent prospect circulation inasmuch as its very nature makes it sell only where it will be used. Its circulation is not so much gauged by the number of copies sold as by the number of people who consult it. There are directory libraries maintained throughout the country for reference purposes, and in them may be found all the most important directories published. Surprise is often expressed by librarians at the number of people who are constantly consulting these sources of information.

There are many kinds of directories and "catalogs," each covering some trade, or locality, or group interest, in which organized information may be found that is useful to the buyer. In every buying center the local directory presents a medium of universal accessibility. For over a hundred years people have been accustomed to refer to it as a logical place to find certain kinds of information. A system of exchange enables each publisher to offer free access to a file of the latest issues of directories from all over the country. This gives every local advertisement a nation-wide accessibility.

The long life of a directory advertisement is a strong point in its favor. It has an existence of 365 days and sometimes twice that, depending on the frequency of issue. It is always kept where it can be found by the buyer when he wants it.

It has a strong appeal for institutional advertising, as reputable publications give prestige to the advertisers who patronize them. It is a significant fact that from 80 to 90 per cent of the advertising in these publications is renewed year after year.

General Offices: 524-528 Broadway, New York City

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

All members of this association have subscribed to the following

STANDARDS OF PRACTICE

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.

$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.

From 30 to 50 per cent

Of the Information in the DIRECTORY of a city or town changes each year. Did you know this? For this reason is it not money saved to have the latest information handy? The only way to do is to have the

Latest City Directory

ONE OF 200 POLK DIRECTORY LIBRARIES

This Little Library Can Answer 945,000,000 Questions

MANY TRIPS AT YOUR FINGER-TIPS —
SAVE MANY MILES, MINUTES and DOLLARS

There are over 300 of these directory libraries in the United States. They are installed and maintained by the Association of North American Directory Publishers as part of the service given to directory advertisers.

Think what this means to you in effort, time and money saved. You want to know the relationship of the signer of a letter to the firm he represents —the directory library has the answer; someone you vitally need to get in touch with in a distant city has moved; business addresses or firm names have changed—the directory library has the answer. Public officials have been replaced by new elections; location of real estate is desired—again the directory library holds the answer.

Of course you could write or phone for the data you desire, but maybe you don't know just who to approach—the directory library has the answer.

This service is free, for single reference, to the public.

SACRAMENTO DIRECTORY CO'S NORTH SACRAMENTO CITY DIRECTORY 1928

SACRAMENTO DIRECTORY CO., Publishers

A THUMB NAIL SKETCH OF NORTH SACRAMENTO

(By North Sacramento Chamber of Commerce)

Subdivided out of original Rancho Del Paso, or Haggin Grant, in 1910, and incorporated in 1924, North Sacramento has grown from a grain field to a town of 3500 in sixteen years.

The contiguous territory comprising the areas known as Hagginwood, Woodlake, Rio Linda, and Robla support a population in excess of 10,000.

Since incorporation approximately $300,000 has been expended in street improvement alone and this includes Del Paso Boulevard, 100 feet wide, traversing the central portion of the town. A modern, sanitary sewer system has just been completed, connecting with every part of the town.

The North Sacramento School District comprises four modern, well-equipped schools, employing thirty teachers at present and being attended by more than one thousand children.

The spiritual needs of the community are cared for by four churches: Methodist, Nazarene, Roman Catholic and Bethel-Lutheran. The social life is represented by the Woman's Club, Rotary and Exchange Clubs, and the Masons. The North Sacramento Chamber of Commerce is, of course, representative of all, and has been the moving force behind all improvements and developments since before the incorporation of the town. It is equipped to supply complete and reliable information on all matters relating to the entire district.

One of the outstanding advantages of North Sacramento is its water supply. Pumped from deep wells it has shown a continuous record for purity surpassed only by the purest of high mountain springs.

Located between the converging lines of the Western Pacific and Southern Pacific and traversed by the Sacramento Northern Railroad, North Sacramento offers the manufacturer the best sites for industrial enterprise in Northern California. Among those located here are the Swanston Packing Co., operating one of the largest meat packing establishments on the Pacific Coast; Cannon & Co., a large manufacturer and distributor of common and faced brick, tile, etc.; Essex Lumber Company, the western branch of the American Lead Pencil Co., employing about 120 people; Western Nut Co.; furniture factory and several other smaller enterprises.

North Sacramento local traffic is served by the Sacramento Northern Railroad and the North Sacramento Stage Line which latter operates a schedule of forty round trips daily to and from Sacramento.

The volunteer fire department has twenty-five men under call.

North Sacramento is seven minutes from the center of Sacramento over a broad concrete highway, and is three miles from Del Paso Park, the 800-acre public park of the City of Sacramento, containing one of the finest municipal golf courses in California.

It has a newspaper of general circulation and the homeseeker will find modern well-stocked stores to satisfy every demand, and including a branch of one of the largest banking institutions in the City of Sacramento.

Directory and Reference Media

THE reference medium or directory, whether it is a city directory, state gazetteer or a business directory, ties up closely with other forms of advertising. It is distinguished from the creative style of advertising in that it is passive while the buyer is active. On the other hand, the creative advertising in newspapers, magazines, trade papers, etc., is active while the buyer is passive.

Both are necessary in a well-rounded campaign. The function of creative advertising is to make people want what they did not want before, and to educate them to the point where they are conscious of that want. Reference advertising is an aid at the critical time when the initiative has passed from the seller to the buyer; when the desire to buy is strong, and the question is whether the prospect will buy the advertised article, another brand, or cool off altogether while waiting for the "catalog and name of nearest dealer." If the advertisement which suggested the want can be supplemented by another directing the prospect to the place where he can see the goods, the efficiency of the entire advertising expenditure will be greatly increased.

The directory has a 100 per cent prospect circulation inasmuch as its very nature makes it sell only where it will be used. Its circulation is not so much gauged by the number of copies sold as by the number of people who consult it. There are directory libraries maintained throughout the country for reference purposes, and in them may be found all the most important directories published. Surprise is often expressed by librarians at the number of people who are constantly consulting these sources of information.

There are many kinds of directories and "catalogs," each covering some trade, or locality, or group interest, in which organized information may be found that is useful to the buyer. In every buying center the local directory presents a medium of universal accessibility. For over a hundred years people have been accustomed to refer to it as a logical place to find certain kinds of information. A system of exchange enables each publisher to offer free access to a file of the latest issues of directories from all over the country. This gives every local advertisement a nation-wide accessibility.

The long life of a directory advertisement is a strong point in its favor. It has an existence of 365 days and sometimes twice that, depending on the frequency of issue. It is always kept where it can be found by the buyer when he wants it.

It has a strong appeal for institutional advertising, as reputable publications give prestige to the advertisers who patronize them. It is a significant fact that from 80 to 90 per cent of the advertising in these publications is renewed year after year.

The Bank Directory of the World

POLK'S BANKERS ENCYCLOPEDIA

Indispensable to Credit Men, Manufacturers Wholesalers, Importers and Exporters

CONTENTS

A full and complete list of Banks, Bankers, Trust Companies and Savings Banks in the UNITED STATES and CANADA, whether National, State or Private, Year Established and Population of City or Town where located.
